Please visit www.seic.com/DublinFundDocs or call +353 1 638 2400 for further information.

Competent authority: Central Bank of Ireland is responsible for supervising SEI Investments Global, Limited in relation to this Key Information Document. SEI Global Master Fund PLC is authorised in Ireland, regulated by Central Bank of Ireland and has been registered for sale in other EEA Member States.

Date of production: 13/07/2023

WHAT IS THIS PRODUCT?

Contact Details: Further information about the Company (such as the prospectus of the Company (the "Prospectus"), report & accounts etc. in English and certain other languages) and other available share classes can be obtained, free of charge, from www.seic.com/DublinFundDocs and price information can be obtained from SEI Investments - Global Fund Services Limited, the administrator, Styne House, Upper Hatch Street, Dublin 2, Ireland and is published every day on Bloomberg.

Type : This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities.

Term : This product has no maturity date. However, the manufacturer may decide to close the product under certain circumstances as set out in the prospectus.

Objectives : The objective of the Fund is to achieve long-term growth of capital and income. The Fund will primarily invest in a broadly diversified portfolio of shares (equities) issued by companies across the Asia Pacific region (primarily Asia and Australia but excluding Japan). The performance and risk of the Fund are actively managed in reference to a benchmark index, the MSCI AC Asia Pacific ex-Japan Index (the "Benchmark"). The Fund aims to outperform the Benchmark over time and does not intend to track it. The Fund will invest significantly in securities within the Benchmark but the Fund is not constrained by the Benchmark and may invest in instruments which are not included in the Benchmark. The Fund may use derivatives (an instrument that derives its value from another underlying asset) for both investment purposes and in an attempt to reduce risk, reduce costs and to generate additional income. The base currency of the Fund is U.S. Dollars. If the share class currency differs from this then its value may be affected by exchange rate movements. Hedged share classes attempt to reduce this effect but may also exclude the benefits of positive exchange rate movement. Shareholders may redeem or exchange shares on demand on any dealing day. A dealing day for this Fund is any business day for the Hong Kong Stock Exchange and for banks in either Dublin or London except 24 December. Further information is available in the Prospectus. Income generated by the Fund is distributed from the NAV (net asset value of the Fund).

Intended retail investor : This product is intended for both retail and professional investors and is designated for those investors that have either basic, informed or advanced knowledge of relevant financial instruments. This product should not be utilized by an investor who cannot bear any capital losses in their portfolio.

Depository: Brown Brothers Harriman Trustee Services (Ireland) Limited

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

We have classified this product as 5 out of 7, which is a **medium-high** risk class. This rates the potential losses from future performance at a **Medium-High level**, and poor market conditions could impact the capacity of the fund to pay you.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Be aware of currency risk. The currency of the share class may be different from the settlement currency of your country, so you may receive payments in a different currency. The final return you receive will depend on the exchange rate between these two currencies. This risk is not considered in the indicator shown above.

Securities from emerging markets issuers may have greater susceptibility to certain risks compared to securities from developed market issuers.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): 5 years Example investment: 10,000 USD			
Scenarios		if you exit after 1 year	if you exit after 5 years (RHP)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	3,814 USD	3,041 USD
	Average return each year	-61.86%	-21.19%
Unfavourable	What you might get back after costs	7,152 USD	6,757 USD
	Average return each year	-28.48%	-7.54%
Moderate	What you might get back after costs	10,063 USD	11,390 USD
	Average return each year	0.63%	2.64%
Favourable	What you might get back after costs	16,438 USD	18,559 USD
	Average return each year	64.38%	13.16%

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 2019 to 2021
 Moderate: This type of scenario occurred for an investment between 2014 to 2019
 Favourable: This type of scenario occurred for an investment between 2016 to 2021

WHAT HAPPENS IF THE FUND IS UNABLE TO PAY OUT ?

The assets of the Fund are held in safekeeping by its depository. In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depository will not be affected. However, in the event of the Depository's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Fund. The Depository will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). If the Fund is not able to pay out what you are owed, you are not covered by any investor compensation or guarantee scheme and you may face financial loss. There is no compensation or guarantee scheme protecting you from a default of the Fund's depository.

WHAT ARE THE COSTS?

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold shares in the fund. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 USD is invested

Example investment: 10,000 USD	if you exit after 1 year	if you exit after 5 years (RHP)
Total costs	94 USD	470 USD
Annual cost impact(*)	0.94%	0.94% each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.58% before costs and 2.64% after costs.

Composition of costs

One-off costs upon entry or exit		if you exit after 1 year
Entry costs	We do not charge an entry fee.	0 USD
Exit costs	A redemption of 3% may be charged in certain circumstances. This is the maximum that might be taken out of your money before the proceeds of your investment are paid out. The exit charge is a levy on large redemptions and is retained by the Fund. For more information about charges, please see the Fees & Expenses section of the Fund's prospectus	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.36% of the value of your investment per year.	36 USD
Transaction costs	This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	58 USD
Incidental costs taken under specific conditions		
Performance fees and carried interest	There is no performance fee for this product.	0 USD

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

The recommended minimum holding period: 5 years.

The RHP is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels. Each Shareholder has the right to request the Company to redeem its shares on any Dealing Day at their Net Asset Value per Share on such Dealing Day subject to the terms of the redemption process set out in the Prospectus. In order to redeem Shares as of any particular Dealing Day, Shareholders must submit a properly completed redemption form to the Administrator before the relevant Dealing Deadline.

HOW CAN I COMPLAIN?

If you have a complaint about The Company, you can contact our UK-based facilities agent by writing to: SEI Investments (Europe) Limited 1st Floor, Alphabeta Building 14-18 Finsbury Square London, EC2A 1BR, or online using the Contact Us section at the top right of the website at: <https://www.seic.com/en-gb>.
