Objectives and Investment Policy

- › The objective of the Fund is to protect against the risk of a significant loss of capital and provide the opportunity for a conservative level of capital growth and income. However, the Fund has not arranged for any formal protection, guarantee or insurance to be put in place.
- › The Fund invests across different asset classes to balance the risk of capital loss and growth. This diversification can help to mitigate the effects of a falling market in any single asset class.
- › The Fund is actively managed and is not managed in reference to any benchmark index.
- › The Fund mainly invests in Sterling priced short term (397 days) bonds, global short duration bonds (which are those less sensitive to interest rate movements) and low volatility companies (which are those less sensitive to equity market movements). The Fund may also invest in longer term government and corporate bonds, companies in developed market countries and commodity-linked investments.
- › While the Fund may invest globally (including high yield and emerging markets), it is generally expected that at least 30% will be invested in the U.K.
- › The Fund may invest substantially in other funds, including SEI Funds, whose investment objectives and policies are consistent with the above. No more than 20% will be held in any one fund.
- › The Fund may use derivatives (an instrument that derives its value from another underlying asset) for both investment purposes and in an attempt to reduce risk, reduce costs and to generate additional income.
- › The base currency of the Fund is Sterling.
- › Shareholders may redeem shares on demand on any dealing day. A dealing day for this Fund is any business day for both the London and New York Stock Exchanges and for banks in either Dublin or London except 24 December.
- › Income generated by the Fund is retained within the NAV (net asset value of the Fund) for accumulating classes and distributed from the NAV for distributing classes.
- › The Fund is suitable for investors seeking a medium to long term opportunity for conservative capital growth and income.
- › For further details of the investment objectives and policies please refer to the prospectus of the Fund.
